We're on a
mission to equip
every creator
with the power
of animation.

It's time to act on your
imagination. Breathe life into
your characters with our full
body motion capture tools
and take the center stage
with rich, immersive stories
created in just seconds.

It's time to break the rules and
create the unexpected. It's
time to make your move with
Rokoko.

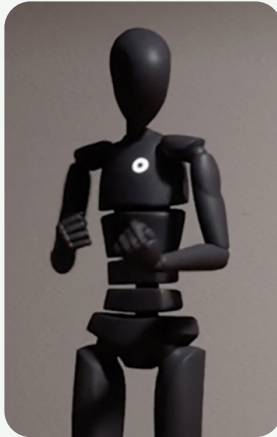

It's shockingly easy

- No need for cameras with wireless motion tracking suit & gloves
- Capture body, fingers, and face at the same time with 1 battery
- Stream live with 1-click integration into your workflow

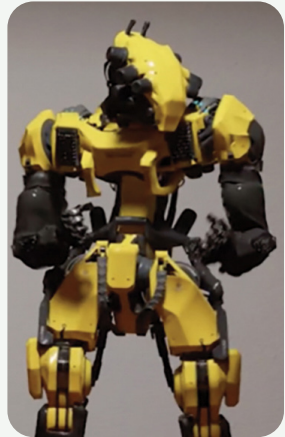

Equip

Slip into the Smartsuit Pro II and Smartgloves. Get set up in less than a minute.

Move

Connect over WiFi with your computer and calibrate in 3 seconds.

Animate

Export or live stream into Unreal Engine, Unity, Blender, Maya, and more.

“

With the Smartsuit Pro we can get an idea in the morning and have it implemented in our game by the afternoon. It's pretty miraculous.

Level up character animation with the Smartsuit Pro II

Designed for indie creators and loved by the world's leading studios, the Smartsuit Pro II captures your body's motion and streams the data over WiFi in real time to your digital characters. Imagine transforming your studio, classroom or bedroom into another world and awakening your characters with lifelike movement.

“ If I’m using motion capture I want to use it for everything. Not just simple animations, I want to run, I want to fall, I want to do stunts... I was impressed on every front by the Rokoko Smartsuit Pro, so that’s why I chose it.” ”

“ It’s crucial that your method for capture be as unobtrusive as possible and to not inconvenience the talent or voice director in any way. Rokoko is a really great tool for this. It is really a perfect workflow. ”

Woody Yucum, Animation Timing Director,
Walt Disney TV Animation
